Station 1

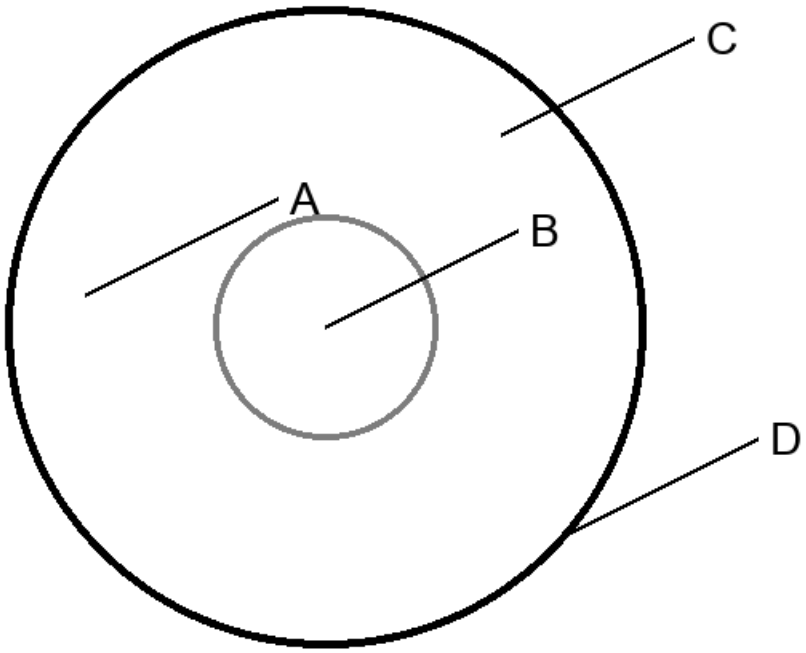

A. Name the structure at pin A.

B. Name the structure at pin B.

C. Name the structure at pin C.

D. Name the structure at pin D.

Placeholder figure, station 1

Station 2

A. Name the structure at pointer A.

B. Name the structure at pointer B.

C. Name the structure at pointer C.

D. Name the structure at pointer D.

Station 3

A. Name the structure at pin A.

B. Name the structure at pin B.

C. Name the structure at pin C.

D. Name the structure at pin D.

Station 4

A. Name the structure at pointer A.

B. Name the structure at pointer B.

C. Name the structure at pointer C.

D. Name the structure at pointer D.

Station 5

A. Name the structure at pin A.

B. Name the structure at pin B.

C. Name the structure at pin C.

D. Name the structure at pin D.

Station 6

A. Name the structure at pin A.

B. Name the structure at pin B.

C. Name the structure at pin C.

D. Name the structure at pin D.

Station 7

A. Which macromolecule does the result in tube A show?

B. Which macromolecule does the result in tube B show?

C. Which macromolecule does the result in tube C show?

D. Which macromolecule does the result in tube D show?

Station 8

A. Which macromolecule does the result in tube A show?

B. Which macromolecule does the result in tube B show?

C. Which macromolecule does the result in tube C show?

D. Which macromolecule does the result in tube D show?

Station 9

A. Name the structure at pin A.

B. Name the structure at pin B.

C. Name the structure at pin C.

D. Name the structure at pin D.

Station 10

A. Name the structure at pin A.

B. Name the structure at pin B.

C. Name the structure at pin C.

D. Name the structure at pin D.

Station 11

A. Name the structure at pin A.

B. Name the structure at pin B.

C. Name the structure at pin C.

D. Name the structure at pin D.

Station 12

A. Name the structure at pin A.

B. Name the structure at pin B.

C. Name the structure at pin C.

D. Name the structure at pin D.

Station 13

A. Name the structure at pin A.

B. Name the structure at pin B.

C. Name the structure at pin C.

D. Name the structure at pin D.

Station 14

A. Name the structure at pin A.

B. Name the structure at pin B.

C. Name the structure at pin C.

D. Name the structure at pin D.

Station 15

A. Name the structure at pin A.

B. Name the structure at pin B.

C. Name the structure at pin C.

D. Name the structure at pin D.

Station 16

A. Name the structure at pin A.

B. Name the structure at pin B.

C. Name the structure at pin C.

D. Name the structure at pin D.

Station 17

A. Name the structure at pin A.

B. Name the structure at pin B.

C. Name the structure at pin C.

D. Name the structure at pin D.

Station 18

A. Name the structure at pin A.

B. Name the structure at pin B.

C. Name the structure at pin C.

D. Name the structure at pin D.

Station 19

A. Name the structure at pin A.

B. Name the structure at pin B.

C. Name the structure at pin C.

D. Name the structure at pin D.

Station 20

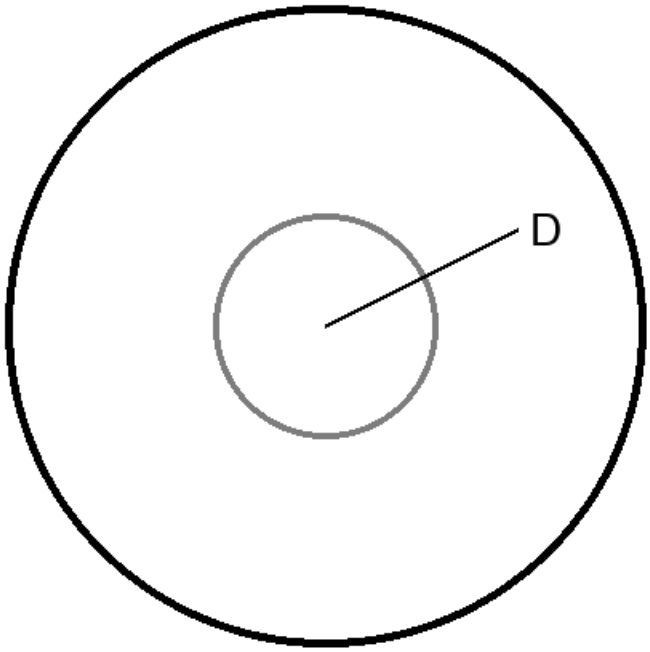

A. Name the structure at pin A.

B. Name the structure at pin B.

C. Name the structure at pin C.

D. Name the structure at pin D.

Placeholder figure, 20D

Station 21

A. Name the structure at pin A.

B. Name the structure at pin B.

C. Name the structure at pin C.

D. Name the structure at pin D.

Station 22

A. Name the structure at pin A.

B. Name the structure at pin B.

C. Name the structure at pin C.

D. Name the structure at pin D.

Station 23

A. Name the structure at pin A.

B. Name the structure at pin B.

C. Name the structure at pin C.

D. Name the structure at pin D.

Station 24

A. Name the secretion described in row A.

B. Name the secretion described in row B.

C. Name the secretion described in row C.

D. Name the secretion described in row D.

Station 25

A. Name the structure at pointer A.

B. Name the structure at pointer B.

C. Name the structure at pointer C.

D. Name the structure at pointer D.
