Test Practical: setup guide

25 stations. Forms AB, CD, AC, BD, AD, BC. Set up each station, check every pin or pointer against its full-credit answer, and tick the box.

☐ Station 1: kidney model

Kidney model, frontal section. Pins A to D.

Placeholder figure, station 1

images/station1.png

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pin A.	renal pelvis	
☐	**B**	Name the structure at pin B.	renal pyramid	
☐	**C**	Name the structure at pin C.	renal cortex cortex	
☐	**D**	Name the structure at pin D.	ureter	

☐ Station 2: kidney slide

Microscope, kidney slide, 4x. Pointers A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pointer A.	cortex renal cortex	
☐	**B**	Name the structure at pointer B.	medulla renal medulla	
☐	**C**	Name the structure at pointer C.	renal column	
☐	**D**	Name the structure at pointer D.	renal capsule capsule	simple columnar epithelium

☐ Station 3: urinary system model

Urinary system model. Pins A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pin A.	urethra	
☐	**B**	Name the structure at pin B.	kidney	
☐	**C**	Name the structure at pin C.	urinary bladder bladder	
☐	**D**	Name the structure at pin D.	ureter	

☐ Station 4: glomerulus slide

Microscope, kidney slide, 40x, pointer on a glomerulus.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pointer A.	simple squamous epithelium Simple squamous	stratified squamous epithelium
☐	**B**	Name the structure at pointer B.	fenestrated capillary fenestrated	
☐	**C**	Name the structure at pointer C.	glomerulus	
☐	**D**	Name the structure at pointer D.	podocyte	

☐ Station 5: bladder model

Bladder model, opened. Pins A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pin A.	ureter	
☐	**B**	Name the structure at pin B.	urinary bladder bladder	
☐	**C**	Name the structure at pin C.	detrusor muscle detrusor	
☐	**D**	Name the structure at pin D.	internal urethral sphincter	

☐ Station 6: nephron model

Nephron model. Pins A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pin A.	afferent arteriole afferent artery	afferent vessel Afferent capillary
☐	**B**	Name the structure at pin B.	vasa recta	
☐	**C**	Name the structure at pin C.	efferent arteriole	
☐	**D**	Name the structure at pin D.	peritubular capillaries	

☐ Station 7: food tests 1

Four test tubes after the Biuret and Benedict tests, labeled A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Which macromolecule does the result in tube A show?	protein	amino acids
☐	**B**	Which macromolecule does the result in tube B show?	carbohydrates Amylose Starch starches	Glucose Sugar
☐	**C**	Which macromolecule does the result in tube C show?	lipid fat	
☐	**D**	Which macromolecule does the result in tube D show?	nucleic acid	

☐ Station 8: food tests 2

Four test tubes after the iodine test, labeled A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Which macromolecule does the result in tube A show?	amylose starch	carbohydrates
☐	**B**	Which macromolecule does the result in tube B show?	sugars monosaccharides glucose simple sugars	
☐	**C**	Which macromolecule does the result in tube C show?	protein	
☐	**D**	Which macromolecule does the result in tube D show?	lipids fats	

☐ Station 9: female pelvis model

Female pelvis model, midsagittal. Pins A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pin A.	uterine tube Fallopian tubes Fallopian tube	
☐	**B**	Name the structure at pin B.	body uterus Body of uterus	
☐	**C**	Name the structure at pin C.	ovary	
☐	**D**	Name the structure at pin D.	cervix	

☐ Station 10: external genitalia, female

Female external genitalia model. Pins A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pin A.	labia majora	
☐	**B**	Name the structure at pin B.	labia minora	Labia
☐	**C**	Name the structure at pin C.	clitoris	
☐	**D**	Name the structure at pin D.	vagina	

☐ Station 11: female pelvis, midsagittal

Female pelvis model, midsagittal. Pins A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pin A.	rectum	
☐	**B**	Name the structure at pin B.	uterus	
☐	**C**	Name the structure at pin C.	urinary bladder	
☐	**D**	Name the structure at pin D.	vagina	

☐ Station 12: ovary model

Ovary and uterine tube model. Pins A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pin A.	fimbriae	
☐	**B**	Name the structure at pin B.	ovary	
☐	**C**	Name the structure at pin C.	ovarian ligament	
☐	**D**	Name the structure at pin D.	broad ligament	

☐ Station 13: large intestine

Torso model, large intestine exposed. Pins A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pin A.	descending colon	
☐	**B**	Name the structure at pin B.	ascending colon	
☐	**C**	Name the structure at pin C.	transverse colon	
☐	**D**	Name the structure at pin D.	sigmoid colon	

☐ Station 14: penis cross-section

Penis model, cross-section. Pins A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pin A.	glans penis	Penis
☐	**B**	Name the structure at pin B.	penis	
☐	**C**	Name the structure at pin C.	corpus spongiosum	
☐	**D**	Name the structure at pin D.	corpora cavernosa corpus cavernosum	

☐ Station 15: male pelvis model

Male pelvis model, midsagittal. Pins A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pin A.	seminal vesicle seminal gland	
☐	**B**	Name the structure at pin B.	scrotum	Testes
☐	**C**	Name the structure at pin C.	testis testes	
☐	**D**	Name the structure at pin D.	epididymis	

☐ Station 16: male accessory glands

Male reproductive model. Pins A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pin A.	prostate gland prostate	
☐	**B**	Name the structure at pin B.	ejaculatory duct ductus deferens vas deferens	
☐	**C**	Name the structure at pin C.	bulbourethral gland	
☐	**D**	Name the structure at pin D.	urethra	

☐ Station 17: external genitalia, female 2

Female external genitalia model. Pins A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pin A.	vulva genitals	
☐	**B**	Name the structure at pin B.	mons pubis	
☐	**C**	Name the structure at pin C.	perineum	
☐	**D**	Name the structure at pin D.	vestibule	

☐ Station 18: cecum

Torso model, lower right quadrant. Pins A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pin A.	appendix vermiform appendix	
☐	**B**	Name the structure at pin B.	transverse colon	
☐	**C**	Name the structure at pin C.	cecum	
☐	**D**	Name the structure at pin D.	ileum	

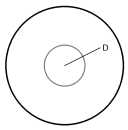

☐ Station 19: abdominal organs

Torso model, abdominal organs. Pins A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pin A.	liver	
☐	**B**	Name the structure at pin B.	esophagus	
☐	**C**	Name the structure at pin C.	stomach	
☐	**D**	Name the structure at pin D.	spleen	

☐ Station 20: pancreas and duodenum

Pancreas and duodenum model. Pins A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pin A.	pancreas	
☐	**B**	Name the structure at pin B.	duodenum	
☐	**C**	Name the structure at pin C.	jejunum	
☐	**D**	Name the structure at pin D. Placeholder figure, 20D  images/station20d.png	common bile duct	

☐ Station 21: gallbladder

Liver and gallbladder model. Pins A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pin A.	gall bladder gallbladder	
☐	**B**	Name the structure at pin B.	small intestine	
☐	**C**	Name the structure at pin C.	cystic duct	
☐	**D**	Name the structure at pin D.	common hepatic duct hepatic duct	

☐ Station 22: stomach

Stomach model, opened. Pins A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pin A.	rugae	
☐	**B**	Name the structure at pin B.	pyloric sphincter	
☐	**C**	Name the structure at pin C.	fundus	
☐	**D**	Name the structure at pin D.	cardia cardiac region	

☐ Station 23: oral cavity

Head model, midsagittal. Pins A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pin A.	anus external anal sphincter	rectum
☐	**B**	Name the structure at pin B.	tongue	
☐	**C**	Name the structure at pin C.	hard palate	
☐	**D**	Name the structure at pin D.	soft palate	

☐ Station 24: digestive enzymes

Printed table of digestive secretions, rows A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the secretion described in row A.	bile	
☐	**B**	Name the secretion described in row B.	pancreatic lipase lipase	
☐	**C**	Name the secretion described in row C.	pepsin	
☐	**D**	Name the secretion described in row D.	salivary amylase amylase	

☐ Station 25: digestive histology

Microscope, small intestine slide, 40x. Pointers A to D.

	Q	Question	Full credit	Partial credit
☐	**A**	Name the structure at pointer A.	simple columnar epithelium Simple Columnar	Columnar
☐	**B**	Name the structure at pointer B.	pharynx nasopharynx oropharynx laryngopharynx	
☐	**C**	Name the structure at pointer C.	esophagus	
☐	**D**	Name the structure at pointer D.	larynx
